

Empowering Your Business with

Safety & Quality Consulting

POWERING CONNECTIONS

Compliance, Safety & Operational Excellence Solutions

✓ Development and Implementation of Safety Management Systems (SMS): Provision of expert consulting for the design, development, and implementation of robust SMS compliant with international standards (e.g., ISO 45001, OHSAS 18001), including policy development, hazard identification, risk assessment, and operational control procedures.

✓ Quality Assurance and Control Program Design: Creation and implementation of comprehensive Quality Management Systems (QMS) aligned with ISO 9001, including process mapping, quality control plans (QCP), inspection and test plans (ITP), and supplier quality management to ensure consistent product/service quality.

✓ Risk Assessments and Compliance Audits: Conduct of detailed risk assessments (e.g., HAZID, HAZOP, FMEA) for operational processes and projects. Performance of internal and external compliance audits against regulatory requirements (e.g., OSHA, local labor laws) and industry standards.

✓ Training and Continuous Improvement Initiatives: Development and delivery of customized safety and quality training programs for all organizational levels. Facilitation of continuous improvement initiatives, including incident investigation, root cause analysis (RCA), and corrective/preventive action (CAPA) implementation.
